ANNUAL MEETING OF C.N. PASS MUSICAL FESTIVAL

At the annual meeting of the Crows' Nest Pass Musical Festival, held at the Greenhill hotel on Friday night last, L. L. Morgan was re-elected president.

Other officers are: Rev. W. T. Young, Calgary, honorary president; Mrs. D. G. Mackenzie, Calgary, honorary vice-president; J. E. Upton, Blairmore, vice-president; Frank J. Smith, Hillcrest, secretary-treasurer. Executive committee: Dr. G. Blair Rose, W. H. Moser, Hillcrest; Miss M. Chardon, Mrs. L. L. Morgan, Mrs. J. H. Farmer, W. H. Chappell, Blairmore. Finance committee: J. E. Upton, Robert Gray, George Pattinson, G. Cruickshank, M.L.A., W. Kerr. General committee: Macleod—J. W. MacDonald, Mrs. J. W. MacDonald and Miss Young; Pincher Creek—R. O. Allison, H. Mellor-Langdale, A. B. McMurdo, Mrs. A. L. Freebairn and Sister Albert; Cowley—Mrs. C. J. Bundy; Bellevue—Rev. Father Donovan, Rev. J. Wood, Watts Goodwin, William Kerr and Mare Plard; Hillcrest—Dr. G. Blair Rose, Thomas S. Beynon, Edward Edwards, G. E. Cruickshank, W. H. Moser and Mrs. D. Thomas; Blairmore—M. S. Chardon, Mrs. L. L. Morgan, Mrs. J. H. Farmer, Mrs. G. Steeves, Mrs. S. Bannan, Robert Gray, W. H. Chappell, M. H. Congdon, Arthur Hadwell, Rev. J. W. Smith and Rev. Father Harrington; Coleman—Robert Evans, George Pattinson, H. T. Halliwell, J. Edgar Roberts, Mr. Roberts, senior; Rev. A. E. Larke, Rev. A. S. Partington and Rev. Father Lebrun; Vermilion—Miss Isabel Dickson, Miss Helen Podzielanska, Mrs. J. A. Broley and Mr. W. M. Dicken; Natal-Michel—Miss Armstrong, John Dunn and the leader of the Michel band, succeeding the late Alex. Almond, former member of the committee; Corbin—Mrs. H. Parsons and Walter Almond. Syllabus committee: Miss M. Chardon, Thomas S. Beynon, W. H. Moser, J. E. Upton and the secretary.

The financial statement, as read by the secretary, is contained elsewhere in this issue, showing the festival to be in good financial condition.

Application was made to the government for assistance on the same basis as other festivals in the province and it is expected that the minister will give the Crows' Nest Pass festival favorable consideration. The meeting voted in favor of obtaining P. L. Newcombe, of Calgary, and E. F. Layton, of Lethbridge, as adjudicators for the 1932 festival, if possible. Both these well-known musicians have had experience as adjudicators of the "Crow" festival, and it is to be hoped their services can be obtained again; otherwise the syllabus committee have been authorized to make other appointments.

"JUST IMAGINE"

Capacity audiences are expected at Cole's theatre on Friday, Saturday and Monday, when the second great DeSylva, Brown and Henderson musical comedy Fox Movietone, "Just Imagine," opens. The world's champion song writers have far exceeded their first production, "Sunny Side UP," which is praise indeed, as more persons saw that picture than any other made last year. The cast includes El Brendel, Maureen O'Sullivan, John Garrick, Marjorie White and Frank Albertson. David Butler directed and Seymour Felix staged the dances.

The Alberta provincial musical festival opens in Lethbridge on May 26.

VOLPATI-MI-URACA

A very pretty wedding was solemnized by Rev. Father Harrington at St. Anne's church here on Saturday morning last, when Miss Katherine Misuraca, of Blairmore, became the wife of Mr. Pietro Volpati, of Natal.

The church was crowded for the occasion, including quite a number of friends of the contracting parties from different parts of the district.

Following the ceremony, the party motored to Natal, where a reception was held at the home of Mr. and Mrs. James Altomare, followed by the wedding-supper, served in the Kootenay hall, when fully four hundred sat to a sumptuous repast. Dancing followed during the evening till after midnight, when the party dispersed, with "Angurio Felicitas a Sposa." The orchestra, consisting of two mandolins, violin and piano-acordeon, was assisted on the latter by Mr. S. Trono, of Blairmore. The beautiful wedding cake was cut and dispensed at midnight.

BLAIRMORE PUBLIC LIBRARY

Chad; "Black Valley," by Raymond Weaver; "Moonstone," by Wilkie Collins; "Winding Stair," by A. E. Mason; "The Confession of a Run Runner," by James Barrie.

Donations of books that are clean and the binding in good condition are always acceptable. Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

FINANCIAL DEPRESSION HAS NO EFFECT ON CONSCIENCE

Although financial conditions are not good at the present time, there are still some whose conscience gives them more trouble than the thought of their depleted bank roll. This fact was brought to light in Winnipeg when R. Creelman, passenger traffic manager for the Canadian National Railways, received the following letter:

"While in the city of Regina, Sask., I found on a store floor a small book. On investigating same I found it to be a R.R. pass and on enquiring found the owner to be in hospital. I decided I would use same and risked getting thru as I was travelling west."

"Now I have never done wrong in my life. I don't know why I done this, but I destroyed pass on reaching journey's end and now I am enclosing \$20.00 to cover expense of trip from Regina to Edison, as that is where the accident occurred. Kindly consider that the owner was not in any way to blame and I hope this will satisfy all."

"One who is sorry and has never done wrong to any one."

The above letter was unsigned but enclosed a perfectly good \$20.00 bill, which has been turned over to the treasurer of the Canadian National Railways.

CONVERSION LOAN HAS WIDE APPEAL

Official announcement was made Monday of the terms of the Dominion of Canada 1931 Conversion Loan. This issue extends the opportunity to holders of Dominion of Canada War Loan and Victory Bonds now approaching maturity to convert their holdings into bonds extending over a further period of from 15 to 25 years, and marks what may eventually prove to be the greatest financial operation in the history of Canada—the refunding of the heavy volume of financial obligations incurred during the war period.

The offer does not involve the raising of any new money. Not a penny will be added to the national debt of Canada in consequence of the 1931 Conversion Loan. It is entirely a matter of exchanging existing bonds for other bonds of the Dominion. A total of more than one billion dollars of bonds reaches maturity within the next three and one half years. This total is made up of about \$52,000,000 War Loan 5 per cent bonds, due October 1, 1931; \$73,200,000 Renewal Loan 5½ per cent bonds, due November 1, 1932; \$446,600,000 Victory Loan 5½ per cent bonds, due November 1, 1933, and \$512,000,000 Victory Loan 5½ per cent bonds, due November 1, 1934.

Holders of bonds of these issues are being given the opportunity of continuing their investment over a longer term in the debt obligations of the Dominion government. They will not lose anything in the way of interest payments or income tax exemption by exchanging for bonds of the 1931 Conversion Loan. It is explained that the new bonds will carry coupons entitling holders to receive up to the date of the maturity of their old bonds the same interest payments and tax free privileges as they would enjoy if they held their War Loan or Victory bonds until the actual date of maturity in each case. For the remainder of the term of the 1931 Conversion Loan bonds, they will carry interest at the rate of 4½ per cent annum, which in the opinion of leading investment bankers, is a comparatively generous return in view of the interest rates now prevailing in the London and New York markets.

Conversion applications are now being invited up to a total of \$20,000,000 of the new bonds. It is announced, however, that the minister of finance reserves the right to increase or decrease this amount, in his discretion. Subscription lists opened Monday and will close on or before May 23, as may be decided by the government.

'HEAR THE PENNIES DROPPING'

The Rev. H. M. Manning, minister of The United Church of Canada, stood with a class of small children at the anniversary service of the Manor Road United church, Toronto, on Sunday, April 12th, and dropped eighty-two cents into their birthday box. His friends of early days—from Macleod in Southern Alberta, where he opened a mission in 1878 and built a church and parsonage when the fort and village were located on an island in the Old Man River, to Trenton on the Bay of Quinte in the east—will be pleased to learn that he is enjoying comfortably good health, is a visiting elder in the Manor Road United church, teaches a Bible class in the Sunday school and for the last four summers has been the pulpit supply while the pastor, Rev. H. S. Clugston, B.D., has been absent on his vacation.—The New Outlook.

THE PLAYGROUND OF THE WORLD

The bureau of provincial information of British Columbia, on instructions from Hon. W. C. Shelly, minister of finance, has issued an artistic booklet entitled "British Columbia—the Playground for the World," in order to bring to the attention of tourists and recreation-seekers the great possibilities offered in this regard by the province.

The booklet, which has an attractive cover in three colors, is profusely illustrated with photo-engravings depicting various beauty spots, mountains, motor highways, picturesque scenes, and seascapes; and its pages are further embellished with small line-drawings framed in tint-blocks. It is prefaced by a brief outline of the romantic background of the province, and the ensuing pages tell as far as possible within the limitations of space of the many and varied phases of recreational allurements offered to the tourist and holiday-seeker in the province while T. G. Longstaff, the noted British traveller, declared to be "destined to become the playground for the world."

This publication was prepared with respect to letter-press, illustrations and art-work by the staff of the bureau of provincial information and was produced by the King's Printer in the government printing offices; in fact, the photo-engraving was the only work in connection with it done elsewhere than under the roof of the printing bureau. It is the first publication the province has got out for tourist purposes in this form, and the mechanical execution is fully up to the high standard always maintained by the King's Printer's staff for color-printing.

The bureau of provincial information has also issued a revised edition of "Highways, Motor Camps and Stopping places in British Columbia." Copies of both these publications may be had by any interested adult upon application to the bureau.

WORLD COMPETES

At least eighty-four countries have been invited to join the International Grain Conference at Regina in 1932, and there is every likelihood that fully fifty will participate. This is the recent statement of Hon. George Hoadley, who sees in the Congress a great opportunity for Canadian wheat growers to establish an unquestioned reputation in the markets of the world. He urges that the greatest consideration be given to grain grown, and that farmers generally take an interest in the exhibits. He speaks with approval of the number of young people who are making scientific study of agriculture and grain growing.

There is apparently a keener desire to produce wheat of quality than in previous years. This year's wheat will be next year's exhibit.

If Canada's wheat bulk large in the prize-winning classes, it will give her grain a world dominance.

This is a discouraging year in many respects, but there is a strong incentive to wheat growers to give special care to their products.—Ex.

CANADA BURNS MUCH GASOLINE

Some idea of the size of the gasoline business in Canada can be gained from figures which reveal an amazing consumption. The total number of gallons burned for all uses in 1929 was 601,225,227. The greatest consumption, of course, was in Ontario where 292,191,000 gallons were used. Of this amount, 229,662,000 gallons were used by motor vehicles. It is interesting to note the varying averages per vehicle in the different provinces. In Alberta the average car consumed 459 gallons, while in Manitoba the average was only 316 gallons. The average for Ontario was 421; Nova Scotia, 424; P. E. I., 352; New Brunswick, 314; Quebec, 417; Saskatchewan, 366; and British Columbia, 374.

(COMMERCIAL TESTS BEING MADE OF SWAN RIVER CLAY)

Tests which have been conducted by the Natural Resources and Development Department of the Canadian National Railways on clays from the deposits near Swan River, Man., indicate that the clays are of the stone-ware type. The tests show that the clays will be useful for yellow-ware and stone-ware pottery, terra cotta, face-brick, fire-proofing, sewer pipe and other similar lines. Further studies are being made as to the commercial possibilities of the Swan River clays.

O'BRIEN AGAIN MANAGES JASPER PARK LODGE

Preparations for the opening of Jasper Park Lodge on June 1st, are now being made by John O'Brien, the manager, who arrived from the east last week.

Mr. O'Brien, who, during the winter, assisted in the management of the "Canadian National hotels in eastern Canada, anticipates that the 1931 season at the mountain resort will be as successful as last year, when a splendid season was enjoyed.

A famous literary woman was often asked by her friends why she never married. "Well," she would reply, "I have three pets at home which almost answer the same purpose as a husband. I have a dog which grows all the morning, a parrot which swears all the afternoon, and a cat which comes home late at night."

The Alberta Association of Registered Nurses offer a scholarship for \$1,000 for university postgraduate work in any branch of nursing. The applicant must be a registered nurse from an accredited training school in this province. She must make application not later than July 15, 1931, to Kate S. Brighty, Edmonton, the secretary-treasurer.

Alfred J. Boulding, of Moose Jaw, was fatally hurt at Ruttan, Saskatchewan, on Sunday last, when a car in which he had left Saskatchewan at 9 a.m., left the highway and ran into the ditch. Mr. Boulding will be remembered by quite a number in this district, having a couple of years ago superintended the installation of electrical machinery at the East Kootenay Power Co.'s plant at Crows' Nest Lake.

The baseball season has opened with a real bang and during the week some interesting contests have taken place. Bellevue went down to defeat before Michel-Natal on Sunday afternoon, and Michel-Natal found their superiors in a game at Hillcrest on Monday evening. On Sunday afternoon, May 31st, a big speed feature is to be staged at Michel between the Spokane Independents and Michel-Natal. The Michel band will be in attendance.

TAYLOR WINS OVER ZBYSKO

CALGARY, Alta., May 8.—Dazed by a blow delivered to the jaw by the open hand, Stanley Zbysko, the veteran Pole, was pinned to the mat for the third and deciding fall by Jack Taylor, Canadian heavyweight champion wrestler, and a former member of the Lethbridge police force, at the Victoria pavilion, Thursday night. Thirty-five hundred enthusiasts, while acclaiming Zbysko their hero, were forced to see him accept defeat to a rougher and younger opponent.

Taylor won the first fall in 16:42, using a double wrist lock. Zbysko took the second with a bar arm lock in 28:20. The third fall came after six minutes and thirty seconds, using a cradle lock to gain the decision after knocking Zbysko to the mat.

NOT BY BREAD ALONE

Ten communities in the prairie provinces, settled for the most part by people of European origin, have received a total of \$5,250 in prize money from the Community Progress competitions conducted by the Canadian National Railways.

If these communities were up against it, as it is sometimes claimed, the whole of Canada is up against it, one would expect to see this "found money" dispensed in relief work in each of the lucky communities. Instead, they are devoting the money to purposes which suggest that they are quite deaf to the baying of the wolf.

The Ukrainian group at Rossburn, Manitoba, is using its \$1,000 prize money to provide scholarships for its sons at Manitoba Agricultural College; German Mennonites, at Hanover, Manitoba, at beautifying school grounds and equipping libraries; A Hungarian district in Saskatchewan plans to buy a piano for the Community hall. A Scandinavian group in Alberta is going to plant trees throughout the community. In another district, composed of new German settlers, the community hall will be embellished with a theatre, dressing-rooms and theatrical library of all things.

This is an inspiring picture of new settlers building up culture in their

new home. If half the depreciable propaganda were true, one would expect these new settlements to use the prize money to provide farmers with a change from their alleged daily fare of frozen gophers and thistle soup. Would people in such straits buy pianos, libraries and scholarships?—Edson-Jasper Signal.

W. A. Kingsland, Toronto, general manager for the central region of the Canadian National Railways, former-

ly general manager of western region, with headquarters at Winnipeg, has been placed in charge of an enlarged territory which will now include the Montreal and Southern Counties Railway; The Oshawa Railway; and the Thousand Islands Railway. These lines are electric lines, operated by the National system.

COWLEY HAPPENINGS

A large crowd congregated in the United church on Sunday evening, when Mothers' Day services were held. Rev. Mr. Horton took charge, delivering a pleasing and able discourse befitting the occasion. One attractive feature was special singing by the children. A solo was sung by Mrs. Bundy.

On Sunday afternoon, around a hundred fans gathered in the Cowley recreation grounds to witness some real live play at baseball, when the Cowley team played against the Todd Creek aggregation, losing to them to the tune of 12-9. Cowley entered the field for a second game, losing to Burmis 10-5.

When riding a horse alone on the highway near his home in the Heath Creek district, George Ingraham, of North Fork, had the misfortune to be thrown, receiving severe injuries from the horse rolling on him. Luckily, Ed. Dionne, a neighbor, happened to pass that way shortly after the accident. Finding him in a critical condition, he went for help, when Mr. Ingraham was rushed to the Pincher Creek hospital, where he is reported recovering.

On Wednesday night, a dance in aid of the Lundbreck church was held in the Lundbreck community hall, a neat sum being added to the funds.

On Wednesday evening last, a meeting was held for the purpose of organizing a softball club, when Father O'Dea was elected chairman and Jim Smith secretary-treasurer.

Ralph Lloyd, of Midnapore, was a recent visitor to the district.

Mrs. McEwen and daughter Doris were visitors to town on Tuesday from Blairmore.

Raymond Blackburn, of Fishburn, was a Cowley visitor during the week end.

David Murphy and Bruce Bouthillier were visitors to Fernie the early part of the week.

A bridge drive, sponsored by the Lundbreck Women's Institute, will be held at the home of Mrs. Ed. Grove on Wednesday afternoon next.

CORBIN HAPPENINGS

Mrs. H. Jorgensen held a birthday party for her young son, Harry, on Monday last.

Mrs. Brett, of Calgary, is visiting, her daughter, Mrs. M. Gibson, at present.

Mrs. George Moses, of Fernie, spent a few days in town this week.

Mrs. W. Porter and children, of Vancouver, arrived in town on Wednesday last.

Rev. Mr. Caldwell and Rev. Mr. McMorain, of Michel, accompanied the Michel junior baseball team to Corbin on Saturday morning last. The youngsters put up a plucky fight against the Corbin juniors, but were defeated to the tune of 28-17. A crowd of youthful fans derived great enjoyment from the game.

Mrs. Fred MacKay, of Blairmore, is the guest of Mrs. L. V. M. Peel this week.

Mr. and Mrs. Joe Lemachuck are receiving congratulations upon the birth of a son on Friday last.

A son was born to Mr. and Mrs. M. Tondini on Wednesday last. Congratulations.

HOARY RADIATOR
THEORY BLOWS UP

URBANA, Ill., May 6.—A theory about steam radiators is upset in a bulletin issued today at the University of Illinois.

The theory holds that radiators should be installed according to the amount of steam they condense, which means their total heat emission. But the Illinois experiments show that this does not mean so much at the arm-chair or "comfort" level of a living room. Shape and location of the radiator are more important factors in projecting heat where it is wanted instead of concentrating it out of reach overhead.

"Ever since we have had radiators," says Professor Arthur C. Willard,

head of the department of mechanical engineering, "it has been considered that the more steam a radiator condensed the better the radiator. Now, as a result of university researches, it has been shown that this is erroneous. What we want is a radiator that will maintain a uniform temperature between the floor and the ceiling with a comfortable temperature at chair-level."

A long, low, thin radiator placed

under a window heats a room quite differently from a thicker, shorter and higher radiator in the same place. The low radiator, with less square feet of surface and the same steam condensation, heats the comfort level at two and a half feet above the floor "with a decided gain in economy over the short, high, thick one."

Both radiators produce the same temperature at the "breathing level," but the air currents from the two

shapes differ so much that the high radiator concentrates heat near the ceiling, while the low one hits for the knees.

Window shades and curtains may affect the comfort of the occupants of a room without changing the air temperature appreciably. This is not a trick of the imagination, but of radiation. The cold surface of window shades act like a magnet, drawing heat from the body by radiation. Curtains

and shades over the glass may reduce this to the point of noticeable comfort.

Oil paints are found better for radiators than the bright, metal bronze paints. All colors of oil paint are equally good. Metal bronze reduces the heat of radiators from 7.4 to 9.2 per cent, and cuts it by 18 per cent from drum heaters. For getting heat out of a drum, a very rusty surface is 7 per cent better than any paint.

Prisoner: "Yes, you honor, but not so thick."—Vancouver Elk.

AN OPPORTUNITY TO HOLDERS OF EARLY MATURING
CANADIAN GOVERNMENT BONDS
TO EXTEND THE TERM OF THEIR INVESTMENT IN
THE PREMIER SECURITY IN CANADAGOVERNMENT OF THE
DOMINION OF CANADA
1931 CONVERSION LOAN

The Minister of Finance of the Dominion of Canada offers to holders of the undernoted Dominion issues the privilege of exchanging their bonds into longer dated issues, in the following terms and under the following conditions:

|| This offer affords to holders of bonds eligible for conversion, the same interest payment and tax-free privileges, for the life of and as contained in the present bonds, and the opportunity of extending the term of the investment at 4½% per annum. ||

WAR LOAN 5% BONDS MATURING 1st OCTOBER, 1931—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1936, bearing interest from 1st April, 1931. The first coupon will be for six months' tax-free interest at the rate of 5% per annum payable 1st October, 1931; the second coupon will be for seven months' interest at the rate of 4½% per annum payable 1st May, 1932; thereafter to maturity interest will be payable half-yearly at 4½% per annum.

RENEWAL LOAN 5½% BONDS MATURING 1st NOVEMBER, 1932—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1937, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds three adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5½% BONDS MATURING 1st NOVEMBER, 1933—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1938, bearing 4½% interest payable half-yearly from 1st May, 1931. The first five interest coupons, being those to and including 1st November, 1933, will be tax-free. There will also be attached to these bonds five tax-free adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932 and 1933, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5½% BONDS MATURING 1st NOVEMBER, 1934—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1939, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds seven adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, 1933 and 1934, for additional interest at the rate of 1% per annum.

Conversion applications in the terms of the foregoing are invited to a total of \$250,000,000. The Minister of Finance reserves, however, the right to increase or decrease this amount at his discretion.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Canadian Bond Dealers and Stock Brokers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the loan. Applications will not be valid on forms other than those printed by the King's Printer.

The subscription lists in the foregoing will open on 11th May, 1931, and will close on or before 23rd May, 1931, at the discretion of the Minister of Finance.

M. Morrison, Robert Barnes, Dr. and Mrs. Bordon, Mr. and Mrs. Frank Celli, Coleman, were among the many from this district attending the Volpati-Misura wedding celebration at Natal on Saturday last.

The following comment on George G. Coote, M.P., appeared in an article in Maclean's describing political life in Ottawa: "Mr. Coote, of Macleod, one of the ablest of the U.F.A.'s, actually brought forward a proposal to abandon the gold standard, to cease raising loans in foreign countries and to allow trade trends to take their course. There is not one chance in a million of such a plan being accepted, but its very suggestion is a revelation of the advanced lines of economic thought, to which the once moderate party of Mr. Coote has advanced."

The death was announced last week of John A. Henderson, pioneer coal operator of the Drumheller district. Mr. Henderson died at Detroit, to which place he had proceeded but a few days previous on business. Taken suddenly ill, he was removed to a hospital, where he died. The late Mr. Henderson was widely known throughout coal mining centres. He was general manager of the Winnipeg Supply & Fuel Company and treasurer of the Western Gen. Coal Mining Company, and was the first Winnipeg coal dealer to sell Drumheller coal in Winnipeg. A number of years ago, Mr. Henderson accompanied the International convention of Mining and Metallurgy to Blairmore, and presided at a banquet at the Greenhill Grill.

A BONA FIDE CANADIAN

At least the laws of the land will make clear just who is entitled to the honor of calling himself a Canadian. In the bill introduced by H. C. H. Cahan, Canadian nationality is the right of (1) any person born in Canada; (2) any person born out of British territory whose father at the time of such birth was of Canadian nationality.

In the following qualifications the term "Canadian domicile" means five years residence in the case of an alien and two years residence in case of British born. No time shall be counted that is spent in jail, asylum or penitentiary.

(3) A Canadian is a naturalized British subject who has Canadian domicile.

(4) The wife and minor children of any natural born British subject who themselves have Canadian domicile.

(5) A naturalized British subject who has Canadian domicile.

(6) The wife of a natural British subject who is included with written consent to his naturalization, or who married such naturalized British subject after the date of such certificate or who himself has Canadian domicile.

(7) The minor children of a naturalized British subject, who are included in his certificate of naturalization or who were born subsequent to such certificate and who themselves have Canadian domicile.

INSTITUTE TECHNOLOGY
AND ART PERFORMING
IMPORTANT WORK

We are in receipt of a bulletin of information on the work done at the Provincial Institute of Technology, Calgary. This is issued by the management on behalf of the students with the desire of assisting these young men to find jobs.

The unemployed are with us from time to time, but the unemployed are our most serious menace. Anything that we can do to find work for men who have the initiative and perseverance to spend time and energy in equipping themselves for special lines of useful work should be done.

The young men attending the Technical Institute are drawn from all parts of the province and represent the hard-working and forward-looking element in our population, from which the best citizens of the coming generation will be developed.

The bulletin describes nine different lines of work in which training is given and is well illustrated. We commend the effort being made to bring the job to the man and to bring the right man to the job.

The annual sports will be held at Cowley on Monday, May 25th.

HOW'S YOUR BRAIN?

This is a trick—so don't say we didn't warn you. Read this sentence: **FEDERAL FUSES ARE THE RESULT OF YEARS OF SCIENTIFIC STUDY COMBINED WITH THE EXPERIENCE OF YEARS.** Now count the F's in that sentence. Only once—don't go back and count them again.

Elsewhere in this paper you'll find the answer, and it will tell you something about how good your brain is.

Mother—"Well, Jimmy, do you think your teacher likes you?" Jimmy—"I think so, mummy, because she puts a big kiss on all my arm."

"I've been thinking, my son, of retiring next year and leaving the business to you."

"There's no hurry, is there, dad? You go ahead and work a few years more and then we can retire together."—Judge.

Teacher: "Harold, in the sentence 'I saw the girl climb the fence,' how many I's would you use?" Boy: "Bofe of 'em, teacher."

Conductor—"What's the matter with the man who was occupying this berth?"

Porter—"Well, the window was open and he got up on the wrong side of the bed this morning."

A boy was about to purchase a seat for a cinema in the afternoon. The box-office man asked, "Why aren't you at school?" "Oh it's all right, sir," said the youngster, earnestly, "I've got measles."—The Outspan.

There are six F's in the sentence you read in the paragraph elsewhere. An average intelligence recollects three of them. If you spotted four, you're above average. If you got five, you can turn up your nose at most anybody. If you caught all six you're a genius, and a lot too good to be wasting your time on foolishness like this.

AN INDIAN'S PRAYER

Oh, powers that be, make me sufficient to mine own occasions. Teach me to know and to observe the rules of the game. Give me to mind mine own business at all times and to lose no opportunity of holding my tongue.

When it is appointed that I should suffer, let me take example from the well-bred beasts—go away quietly to suffer by myself.

Help me to win, if win I may, and this especially, if I may not win, make me a good loser. Amen.—Author Unknown.

NEW FRATERNITY FORMED IN BLAIRMORE

At a largely attended meeting of those interested in the propagation of dandelions, held in the retunda of the Ritz-Carlton, immediately at the rear of the Blairmore Hardware store, on Friday last, an organization was effected, to be known as the "Royal Antediluvian Association for the Protection of Overgrown Dandelions." The officers are as follows: Dominic Campo, ornery president; M. Glazomuzi and "Doro" Peressini, ornery vice-presidents; Jack McPhail, president; Walter Fisher, vice-pres.; dent; W. J. Bartlett, Mar Poy, Tom Folme and Albert Olson, committee. Joe Steffano was considered qualified and unanimously elected inspector of roots. The new organization believes in developing the destruction of dandelion roots, but require that all roots be inspected and branded before being cut. In order to encourage the work of the association this year, Mr. T. Folino has offered a pair of shoes to the individual showing the biggest dandelion root. Regular meetings will be held each evening at 7.25.

Taking Canada's Census

The decennial task of "counting noses" in Canada, or, in other words, the enumeration of the census of the Canadian people, takes place in the month of June. It is a big and fairly expensive job requiring the services of a small army of men, and, after their initial work is completed, hundreds of clerks and expert statisticians will be engaged for months compiling, tabulating and analyzing the returns sent in to Ottawa by these thousands of enumerators.

The question may naturally arise in the minds of some people: Is it all worth while? Is such a large expense justified, especially in these times of declining revenues and enforced economies, merely to ascertain how many people there are in Canada, and an array of facts relative to each individual?

There can be only one answer to such questions. It is very much worth while; in fact, it is vitally important. Just as it is of importance and value to a farmer to know how many bushels of grain he may have produced from a given number of acres; how many chickens he possesses; how many pounds of milk and cream his cows have produced; or to a business man how great his annual turnover has been, so is the collection of the census information of importance and value to the nation as a whole. It is a form of national stock-taking.

But that is not all. Under our Canadian system of government, and the relationships, financial and otherwise, which exist between the Federal and Provincial governments, population is an important factor. In many respects it is the all-important, the deciding factor.

First and foremost, the representation of the people in Parliament is based on population. Let us illustrate: Suppose, for example, the census shows a population of 3,000,000 people in the Province of Quebec. Under the constitution those 3,000,000 people are entitled to 65 members in the House of Commons, that is, one member for each 46,154 people. Therefore, each group of 46,154 people in every other Province is entitled to a member. After each decennial census there is a redistribution of representation in the House of Commons based on the facts disclosed by the census. In this way the representation of all parts of the Dominion is made and kept uniform and equitable.

Furthermore, the financial relations between the Dominion and the Provinces is based on population. The Dominion pays cash grants to the Provinces of so much per head of population, and in the case of the three prairie provinces it pays increasing amounts annually as population increases until a certain maximum amount is reached. Unless there was a census taking these amounts could not be accurately ascertained.

Again, only by knowing the population it is possible to arrive at such facts as the amount of the per capita debt, per capita taxation, volume of trade and commerce per capita, and a volume of other statistical matter upon which both national and Provincial policies of finance and taxation, are founded.

While the enumerators are thus "counting noses" they are also gathering other important information. The wealth of the Dominion, its productive capacity, the social condition of its people, their racial antecedents, the extent of their literacy, how many males and how many females, how many children, middle-aged, and aged people—information all having a bearing on future policies for the development and well-being of the Canadian nation.

This year, for the first time, complete information is to be obtained on the subject of unemployment—how many are out of work, the nature of their usual employment, what caused their state of unemployment, etc., etc.—all with a view to finding out the actual extent and causes of unemployment as a guide to finding out and applying the necessary remedies, and developing policies to prevent a recurrence of such an unsatisfactory and deplorable condition.

It will be seen, therefore, that the census-taking is a vitally important national undertaking. It is clearly the duty of every citizen to co-operate with and assist the census enumerator in his work. His questions should not be resented, but, on the contrary, should be welcomed and full information freely and gladly given to him. He will be discharging his duty, a national duty at that. In like manner the citizen will be discharging a national duty by extending every assistance in his power.

Nurse Leaves For Northland

Winnipeg Lady Will Remain In Far North For Five Years

Miss Prudence Hockin, of Winnipeg, formerly of Oak Lake, Manitoba, leaves shortly for Buffalo Bay as superintendent of a new Anglican hospital at Pangnirtung. She will make the trip to the far north by the Hudson's Bay boat leaving Montreal early in the summer, the only ship of the year to attempt the passage. It will take two months to complete the trip to Pangnirtung, and Miss Hockin has undertaken to remain in the mission hospital there for five years.

The radio has put the mission headquarters in touch with the outside world to the extent that radiograms are received there once a week. But none can be sent out. The population consists of 12 white people and shifting population of Eskimos.

Nothing worries some people like the absence of worry in others.

Easy Work For Blind

Profession Of Masseur Is Very Popular Among Sightless In Japan

The profession of the masseur is the one in which a blind person is the equal, if not superior, to persons with sight. W. McG. Eager, Secretary-General of the National Institute for the Blind, with offices in London, said at the world conference on work for the blind.

"I am surprised that in America the profession of masseur has not been more popular among the blind," Eager said. "In Japan almost all of the masseurs are blind. In fact, it has become so much a custom that the Japanese words for 'blind man' and 'masseur' are the same."

Miss Theresa M. Ravary, Gallingerstown, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Soviets Could Mobilize Large Army Quickly

National Leaders Have Made Provision For Any Emergency

Despite protests from the Soviet that the Russians are working for peace it is estimated that the nation could mobilize an army of 17,000,000 men within three months of the outbreak of war. Of these, some 10,000,000 would be members of line regiments and provide a rifle strength of that number.

Within three weeks of the start, the Soviet is believed capable of throwing 3,000,000 fighting men into action. In addition, the national leaders have been concentrating on supplies, and they keep permanently in reserve enough food to last three months. They are also building up the air wing of the fighting corps.

Besides tossing bushels of wheat on the world markets, the Soviet is evidently ready to throw in quite a supply of cannon fodder when the time comes.

MOURNING WARDROBE

"A death occurred in our family and I had to go in mourning. I could hardly afford to buy all black clothes, so I decided to dye what I had. I consulted our druggist and he advised using Diamond Dyes. Everything came out beautiful—coats, wool dresses, stockings and all. I have since learned to appreciate the excellence of the black Diamond Dyes. I tried another black dye and the results were impossible. I had to get Diamond Dyes and do the work over. Recently I have tinted my curtains a beautiful raspberry shade and dyed a rug a lovely garnet with Diamond Dyes. They are real money savers—the finest dyes money can buy—I truly believe."

Vimy Memorial

Major Newburn Will Endeavour To Hasten Completion Of Work

Maj.-General S. C. Newburn, of Hamilton, Ont., who called for Europe on the "Empress of France," will endeavour to hasten completion of the Vimy memorial while overseas, he said. Before the boat left, the officer, in referring to the memorial said:

"As chairman of the national battlefields commission, I am going to meet General Hughes, who is now in Europe, and one of the things I will do is try and expedite the completion of the Vimy memorial. This memorial was supposed to be finished next year, but I understand there has been some delay in receiving the stone and while I can say nothing officially, it is possible that the completion of the memorial will be somewhat later than expected."

Largest Fur Shipment

The largest single shipment of white fox pelts ever received in Winnipeg reached the city recently by Canadian National express. This shipment was transported from the shores of Hudson Bay over the Hudson Bay Railway. The shipment, which was billed independently of its large fur companies included 431 white fox pelts and a dozen red fox pelts, all of which were trapped in the high north during the past winter.

Now you will know the pleasant way to lose unsightly fat, and you'll also know that the six vitalizing salts of Knuschen have protected you from glacial health.

That's the way Englishwomen keep slim—why not you?

Does Not Include Churchill

British Engineer Will Not Survey Hudson Bay Port

The Port of Churchill will not be included in the survey to be conducted by Sir Alexander Gibb, noted British harbor engineer, Premier Bennett has announced in the House of Commons.

The Hudson Bay port was designed for recent plans, and the premier did not believe Sir Alexander Gibb should be forced to pass on plans designed by a "fellow engineer" from London.

Three of Sir Alexander Gibb's men are now in Ottawa, preparing preliminary plans. Gibb, the premier said, but he did not announce when the engineer, himself, would leave England. The survey will be confined to Halifax, Saint John, Quebec, Montreal and Vancouver.

(By Betty Barclay)

CORN RELISH SALAD

- 1 package lemon-flavored gelatin.
 - 1 cup boiling water.
 - 1/2 cup cold water.
 - 3 tablespoons vinegar.
 - 1/2 teaspoon salt.
 - 1/2 cups corn, cooked.
 - 1 green pepper, chopped.
 - 1 minced onion.
 - 1 tablespoon onion, grated.
- Dissolve gelatin in boiling water. Add cold water, vinegar, and salt. Chill. When slightly thickened, fold in corn, pepper, tomato, and onion. Turn into mold. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

COCONUT CAKE PIE

- 1/2 cup special cake flour, sifted.
- 1/2 cup sugar.
- 1/2 teaspoon salt.
- 2 cups milk, scalded.
- 2 eggs yolks, well beaten.
- 1 cup coconut, southern style.
- 1 teaspoon vanilla.
- 1 baked 8-inch pie shell.
- 4 tablespoons sugar.
- 2 egg whites, stiffly beaten.
- 1/2 teaspoon vanilla.

Combine flour, sugar, and salt; add milk. Cook in double boiler until thickened, stirring constantly. Pour small amount of mixture over egg yolks, stirring vigorously. Return to double boiler and cook 10 minutes longer. Add coconut and vanilla. Cool and pour into pie shell. Fold sugar into egg whites; add vanilla. Fill lightly on coconut filling. Bake in slow oven (300 degrees Fahrenheit) 12 minutes, or until delicate brown.

Government Advertising Campaign

Large Sum Spent In Urging People To Buy Canadian-Made Goods

Total of \$82,030.77 was spent by the Dominion Government in the advertisements of the Department of Trade and Commerce which urged the people of Canada to buy Canadian-made goods. This sum had been spent since the present administration assumed office, according to a return tabled in the House of Commons.

The money was distributed among the newspapers of the country as follows: Dailies, \$38,023.40; farm papers, \$36,417.46; miscellaneous, \$13,979.98, and weeklies \$3,002.84.

Study Economic Conditions

Urges Appointment Of A Permanent National Committee For This Purpose

Appointment of a permanent national committee to study all phases of social and economic conditions with a view of making plans to prevent recurring cycles of unemployment is urged on the Dominion government by a round-table conference on unemployment which met in Ottawa. The conference, convened by the Canadian Council of Child Welfare, was representative of social welfare organizations in all parts of Canada.

The recommendation was one of many contained in a report which was drawn up and presented to Hon. G. D. Robertson, minister of labor, for submission to the Dominion government. Senator Robertson attended a dinner which brought the conference to a close. The report will be submitted to the provincial governments.

The proposed committee, it is suggested, would study the economic and social structure of Canada "with the purpose of pooling the best knowledge of governments, industrial, agricultural, and financial interests, social and health agencies, in evolving a more stabilized system of production and distribution and of supply and demand."

Use Machine Guns

Toronto Police Force Being Trained To Handle Deadly Weapons

Detectives of the Toronto police department are being trained to handle machine guns if the occasion ever arises to use these deadly weapons, the Toronto Star says. Three guns that fire 1,000 rounds in a minute and bullets that travel 930 feet a second, are being experimented with by Inspector Robert Alexander, aide to Chief Draper, and officer in charge of training.

Officers of the motorcycle squad, the Star further says, are also taking part in the training which will be extended to other ranks after all detectives are thoroughly schooled.

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

HON. ROBT. WEIR REFERS TO CREDIT PLAN FOR WEST

Ottawa, Ont.—In a speech recording government achievements for agriculture since he took over that portfolio, Hon. Robert Weir, Minister of Agriculture, aroused the wild enthusiasm of Conservative supporters in the House of Commons. It was the minister's long-awaited maiden speech.

For weeks opposition members have been demanding that the government declare its agricultural policy. Finally, through the medium of an amendment to supply asserting the government failure to enunciate an agricultural policy, the opposition brought the demand to a head. Mr. Weir, Minister of Agriculture, spoke to a crowded gallery and chamber, to Conservative benches which cheered him again and again, and to an opposition which protested at times the statements which he made.

The minister indicated what had been done since he assumed office rather than what he proposed to do. He told of steps taken to develop the British market for Canadian cattle; of negotiations with steamship lines and cattle men, and of the fair measure of success resulting therefrom.

He discussed the butter market, claiming that through the efforts of the government prices for the Canadian product had been kept up until a few weeks ago, when the market broke. The eight-cent duty on importations under the British preference and verbal agreements with Australia and New Zealand had helped to hold the market, he claimed. The negotiations carried on so far to enable western farmers to obtain banking credit, were described. These had culminated in an offer of assistance by the Dominion Government. Mr. Weir asserted. "When the offer is known," he said, "I am sure honorable gentlemen opposite will blush for having discussed this question in the way they have done."

He realized, said Mr. Weir, that the policy which he had announced would not bring immediate relief to the farmer. He knew the load of mortgages and debt that the western farmer was carrying. He knew that it required immediate relief, and that that load was not put on the farmer since last August, he reminded the House.

The minister directed some scorching shots across the floor. He particularly singled out Hon. W. R. Motherwell, his predecessor in office, and Sir Hon. Mackenzie King.

After the desk-thumping, clapping and cheering had subsided when Mr. Weir sat down, it was succeeded by an outburst from opposition benches as John Vainance, Liberal member for South Battleford, rose to reply.

"After listening to the speech of the minister, I am convinced that he is a better politician than he is an agriculturist," asserted Mr. Vainance. "The most important matter for the western farmer today is markets for wheat, and the minister never touched on it."

Establishment of a 100 per cent. wheat pool, or the restoration of the Wheat Board was urged by Mr. Vainance.

In earlier debate, Dr. T. F. Donnelly, Liberal member for Willow Bunch, had criticized strongly the activities of Hon. G. Howard Ferguson, Canadian high commissioner to London, England, in connection with the Rome wheat conference.

Mr. Ferguson, he alleged, had succeeded in dividing buyers and sellers.

Probe Mail Thefts

Series Of International Mail Robberies To Be Investigated

New York.—Postal authorities both here and in Great Britain began an investigation of a series of international mail robberies, the extent of which officials have not yet been able to determine.

A systematic rifling of letters, some containing remittances to persons in Ulster, Ireland, has been going on some time, it was learned recently. United States and British postal authorities have been pushing their investigation, co-operating by cable.

It is believed the mail has been robbed on the United States side and not after reaching England and Ireland.

Boy Bandit Escapes Lashes
Ottawa, Ont.—The 20 lashes to which Robert Kitowski, a Fort Frances boy slightly over 16 years, was sentenced have been remitted by order-in-council signed by the Governor-General. Kitowski, who robbed a bank, was sentenced by a police magistrate to five years and 20 lashes.

Experts Will Attend Wheat Conference

Discussion At Canada House, London, England, Will Be Private
London, England.—All the wheat exporting nations of the world, including Soviet Russia, will be represented at the wheat conference opening on May 18, at Canada House here, under the chairmanship of Hon. G. Howard Ferguson, Canadian high commissioner to Great Britain.

The United States has already indicated it is sending three experts. Russian participation is assured. And conference, an outgrowth of the world wheat conference at Rome, will be enabled to make a thorough study of the world wheat situation so far as it particularly concerns the exporting nations, preliminary to endeavors to reach agreement on some form of orderly marketing of the next wheat crops.

The conference is expected to last about a week and the discussions will be private.

Canada's high commissioner—Hon. G. Howard Ferguson—will represent this Dominion at the wheat conference to be convened in London, England, on May 18. The advisers who were present with Mr. Ferguson at the wheat conference in Rome will again act in the same capacity at the London wheat conference.

Installed In Office

Alberta's Lieutenant-Governor Sworn In At Impressive Ceremony

Edmonton, Alberta.—On May 5, Hon. W. L. Walsh, former supreme court judge of the province, became Alberta's fourth lieutenant-governor since its creation in 1905. Successor to Hon. William Egbert, he was sworn into office at the legislative buildings here in an impressive and brilliant ceremony attended by the viceregal retinue, Alberta's judiciary and members of the legislature. Hon. Mr. Walsh took the oath of office administered by Hon. Horace Harvey, chief justice of the supreme court of Alberta.

A colorful gathering attended the swearing-in ceremony. Col. A. C. Gillespie, aide-de-camp, met the viceregal train at Millet, and accompanied the new occupants of Government House to Edmonton. Civil officials, as well as provincial government heads and prominent judicial representatives, greeted the first citizen of Alberta and Edmonton on his arrival here.

B.C. Cattle For Russia

Negotiations Opened Up For Purchase Of Pure Bred Stock

Vancouver, B.C.—It is understood that Soviet Russia may buy a number of purebred dairy cattle from British Columbia farms to strengthen the herds of Eastern Siberia. Negotiations were opened some months ago, and steps are now being taken to arrange the best means of handling them. They are to go from here to Japan, and will be trans-shipped from there either to Harbin or Vladivostok. It is understood that the first shipment will consist of 40 head.

Another movement of dairy stock from this province is that to Shanghai, and it is becoming a regular one. A dairy farm at Shanghai is taking about 10 head of good grade milkers monthly, and it is expected this will continue. It is in the nature of replacement, as more than 100 head have been done in the past. Mr. Wood declared.

Alberta Wheat Pool

Will Carry Out Its Usual Policies Says Henry Wise Wood

Calgary, Alberta.—The Alberta Wheat Pool will carry out its usual policies and members will be bound by contracts which they have signed, said Henry Wise Wood, chairman of the Alberta Pool, when informed that the Manitoba Wheat Pool will solicit the opinion of members as to whether they wish the privilege of selling their grain on the open market after June 1, through the Pool elevator system.

"Action by the Manitoba Pool has nothing whatever to do with our pool, and I might say that we intend to carry on in the future as we have done in the past," Mr. Wood declared.

Heavy Fire Loss Last Year

Toronto, Ont.—Canada's property loss by fire in 1930 was more than \$40,000,000 according to figures supplied by the Dominion Fire Protection Association which held its annual meeting here on May 8. Number of lives lost during the year was 233.

Reduced Wheat Acreage

Canberra, Australia.—Approximately 13,500,000 acres of land will be sown to wheat in Australia in the coming season, compared with 18,000,000 acres last year, the government states.

Busy Times Ahead

Prophecy Is Made That Canada Will Soon Need Immigrants To Meet Demand For Workers

Toronto, Ont.—Prophecy that Canada would be needing immigrants to meet the demand for workers within two years, was made by Col. R. E. Smythe, director of the Technical Service Council, at the 10th annual convention here of the Ontario office superintendents of the Employment Service of Canada.

It was urged that a clause requiring that 75 per cent of the help needed in construction of public works be secured through the Employment Service of Canada, should be included in government contracts. The Federal Government will be approached to ensure the inclusion of a clause to this effect.

It was resolved to request the department of labor to take additional means to discourage importation requests and that the immigration department be asked to check carefully all skilled workers seeking admittance to Canada.

Letters Seized

Letters Containing Irish Sweepstakes Tickets Stopped At Winnipeg Post Office

Winnipeg, Man.—Thousands of letters were seized at the Winnipeg post office because they were found to contain Irish sweepstakes tickets on the English Derby. The seizure was made under order of the postmaster-general of Canada, as sweepstakes mail is illegal under Section 238 of the Criminal Code.

The postal staff here have seized numerous letters containing the tickets in the past week, but recent collection was the largest on record. The letters, disguised in various ways, will be returned to the dead letter office, Ottawa.

WOULD EXTEND BRITISH TRADE WITH DOMINION

Ottawa, Ont.—"We are fully assured that there under a strong pro-British sentiment in Canada and that the manufacturers in this country are willing to co-operate with English industrialists along lines that are complementary, and supplementary," Sir James Lithgow, president of the Federation of British Industries, said in an interview here. "We are fully conscious that there is over-production in the empire and throughout the world, for the relief of which British industrialists are willing to do their part, and we believe that there are openings and directions in which it is to England's advantage at present to buy in England."

Sir James is leading a trade delegation which has come to Canada upon the invitation of Hon. H. H. Stevens, Minister of Trade and Commerce, to study economic conditions and to discuss with the government and manufacturers of the Dominion ways and means of extending British trade in Canada. The other members of the delegation are Sir Arthur Duckham and Mr. MacKenzie. They interviewed Mr. Stevens, but no statement was given out regarding the conference.

Senate Craves Work

Lack Of Legislation Given As Reason For Slack Hours

Ottawa, Ont.—Restless because of inactivity, the Senate is searching for work. Since the present session opened, the Upper House has deliberated only about 10 hours altogether, because of lack of legislation originating in the House of Commons. To-day, the Senate had an informal discussion on the aims and achievements of the League of Nations.

Rising at the conclusion of the informal debate, Senator John Lewis pointed to the lack of legislation to be considered by the Senate at the present time. It was generally supposed the Upper House acted as a "brake," he said, but he could see no reason why speed and direction of public thought could not be influenced also by the Senate.

Leads In Wheat Production

Studies That Russia Is World's Leading Producer Of Wheat

Washington, D.C.—Russia again is the world's leading producer of wheat. Figures supporting that unsuspected and highly significant statement were expected to be released about May 20, by the United States Department of Agriculture.

It was said that Russian production for 1930 likely would be announced at 1,097,000,000 bushels, which is 246,000,000 bushels more than was produced by the United States—largest wheat producers since Russia left the export picture during the war.

Eckener Will Meet

Wilkins In Arctic

Announces Plan To Start For North Pole In July

Friedrichshafen, Germany.—Dr. Hugo Eckener, master of the Graf Zeppelin, announces he will start for the North Pole in his big ship about the middle of July to meet Sir Hubert Wilkins, who is going up there in a submarine.

This attempt to make a contact with Sir Hubert at or near the pole, he said, should clarify the question as to whether the airship is the most appropriate means for landing polar expeditions near their destination, picking them up later and providing them with supplies during their stay in the Arctic.

The Zeppelin expedition is to be financed by William Randolph Hearst, whose newspapers also are backing the Wilkins voyage.

The Graf will carry 45 persons on the Arctic flight, including Lady Drummond Hay.

It will take along complete polar equipment, including sledges, boats and Arctic clothing. The time of the start will depend on the progress of the Wilkins expedition.

Ottawa Dismissals

Information Given Out Regarding Retirements Of Employees

Ottawa, Ont.—Of the 1,295 employees of the Department of the Interior, who have been retired or notified of retirement, 442 were permanent on the staff at Ottawa, and 128 temporary. In the outside service 591 were permanent and 136 temporary employees. This information was given to E. R. E. Chevrier, (Liberal, Ottawa), in the House of Commons by Hon. T. G. Murphy, Minister of the Interior, in answer to a question.

The Dominion lands administration service loses the largest number of personnel with 442 employees being retired, or notified of retirement, while the forestry service loses 436. A total of 116 will be dismissed from the surveys bureau.

MANITOBA POOL MAY ADOPT A NEW SYSTEM

Winnipeg, Man.—Manitoba Wheat Pool members will be given the right to choose between pooling their grain voluntarily, or selling it on the open market, if proposals announced recently by Manitoba Pool directors are approved by members. If the proposals are adopted, they will come into force June 1, 1931.

Contained in a letter signed by President Colin H. Burnell and forwarded to all Pool members, the proposals will be discussed at special meetings of 94 Pool locals in Manitoba, to be held during the last week in May. Under the suggested changes, all open-market sales would be handled by Manitoba Pool Elevators, Ltd., the Pool's elevator system.

Decision to pave the way for alteration of the principle of the Pool contract, should members so desire, was reached at a meeting of the board of directors at Winnipeg, May 14, 1931, at which considerable discussion followed.

It followed a directors' meeting was given to a resolution passed at the annual Pool delegates meeting last November, asking directors to call a 1931 summer meeting to consider the question of handling the 1931 crop.

If members of the Manitoba Pool approve the proposals — and it is expected that adoption will be unanimous — the grain handled by Manitoba Pool Elevators, Limited, will be "hedged" immediately on the futures market. "Hedging" is sale of grain on futures contract to guard against a price-drop. Decision to "hedge" grain would make a drastic change in Pool policy, which has on basic principle spurred the use of "hedging."

Mr. Burnell lists the directors' proposals as follows:

1.—The pooling of grain to be placed on a purely voluntary basis.
2.—All grain not pooled to be sold through Manitoba Pool Elevators, Limited, on the open market.
3.—That the proposed changes be submitted to the 94 Pool locals at meetings which will be held in the last week of May, in order that every member may have an opportunity to become acquainted with them.

4.—That the plan come into force on June 1, 1931.
Every Pool member is urged in the Burnell letter to attend his local meeting "and give his personal support to this endeavor to carry co-operative marketing through a critical time."

WHEAT PRICES THE MAIN CAUSE OF DEPRESSION

Ottawa, Ont.—Reduction in salaries of civil servants may be necessary during the present depression, suggested Senator J. J. Hughes of Prince Edward Island, speaking in the senate. The reduction should be general and include the governor-general as well as the lowest-paid office boy. The president and employees of the nationally-owned railway also should be included.

Hon. W. A. Buchanan, Lethbridge, Alberta, said the one word indicative of Canadian conditions was "wheat." If wheat prices could be restored to normal rates, the solution of Canada's economic problems would be possible. The economic welfare of Canada depended upon the purchasing power of the Western farmers, and if steps were not taken to increase that power, conditions would become worse.

Irrigated lands in the West might be changed from wheat production to that of commodities not in competition with general agricultural production in the West, Senator Buchanan suggested. The sugar beet industry might be developed; canning factories established and an incentive given to the production of wool.

Unless new markets were found for Western crops, the miners would be closed permanently, Senator Buchanan predicted. The industry there was in as acute distress as in Nova Scotia, and the miners in Alberta during the past year averaged two days' work a week.

Second reading was given a government bill to appoint two additional directors for the Canadian National Railway.

Film Studios For Canada

British Firm May Enter the Production Field Here

New York.—Possibility that the Gaumont-British Film Corporation, one of the largest motion picture organizations in Great Britain, might enter the production field in Canada, was seen in the statement by Arthur Lee, of the American-Anglo Corporation, that preliminary negotiations were under way which might lead to the establishment by Gaumont-British of studios at Windsor, Ont., and Victoria, B.C.

While these negotiations were in a very vague stage and might not come to anything, Mr. Lee said Gaumont-British this summer would make a determined effort to place more pictures in Canadian theatres. He said he would interview heads of Canadian theatrical syndicates within a few weeks with the object of securing increased distribution for Gaumont-British pictures.

Mr. Lee denied rumors that Gaumont-British contemplated the idea of founding a theatre chain in Canada.

For Uniform Auto Laws

Inter-Provincial Convention To Be Held At Ottawa This Month

Montreal, Que.—An interprovincial convention will be held at Ottawa, May 20 and 21, where delegates of the roads departments of the various provinces will meet to discuss ways and means to obtain uniform laws regulating traffic on the highways of Canada. It was announced by Hon. J. E. Perreault, Minister of Roads, at the local provincial office.

It was explained by the minister that, because of the inter-provincial traffic on the roads connecting the different parts of the country, it had become urgent to harmonize the regulations and ordinances of the various provinces. Some of the laws adopted at Quebec had been widely discussed in the other provinces, said Mr. Perreault, and it is hoped that when properly explained, they will be adopted by all.

Establishment Of New Tariff Board Asked

Notice Of Resolution From Premier Bennett Appears On Order Paper

Ottawa, Ont.—Notice of a resolution calling for the appointment of the new tariff board appears on the order paper of the House of Commons to the name of Rt. Hon. R. B. Bennett, prime minister and minister of finance. The motion reads as follows:

"Resolved that it is expedient to bring in a measure for the appointment of a tariff board, to prescribe the constitution, functions and duties of the board, and to provide for the salary to be paid the members, officers and employees of the board."

The resolution will form the basis for a bill to be introduced later.

As will be noticed through an advertisement elsewhere in this issue, as well as by posters, the new Cascade Inn at Lundbreck Falls will be opened on Thursday evening of next week, May the 21st, with a grand dance, for which Len Davis' Royal Acadians will furnish music. The new premises are beautifully located and have several cabins in connection.

At the recent annual session of the Alberta Rebekah Assembly, held at Lethbridge, a statement was submitted in connection with the proposed home for aged Rebekahs and children. Among the many lodges contributing to the fund were the following from this district: Alexandra Rebekah Lodge, Pincher Creek, \$260.35; Victoria Rebekah Lodge, Coleman, \$131.75; Crowview Rebekah Lodge, Blaimore, \$26.25. These amounts go toward the Rebekah Home Furnishing Fund.

The funeral of W. A. Dempster, who died suddenly at Drumheller on Wednesday, April 29th, took place at Kamloops, B.C., on Saturday, May 2nd. At the inquest, the jury returned the following verdict: "We, the undersigned jury, empaneled for the purpose of enquiring into the cause of death of William A. Dempster, find that he died as the result of heart failure on the morning of 29th of April, 1931, at approximately 9.30 o'clock, in the car of Dr. A. E. Cline, situated about three miles west of Munson, Alberta, and from the evidence given, we are of the opinion that the heart condition was caused by his war service."

Mothers' Day service in the United church was a great success. The gallery and the body of the church was full, chairs had to be placed in the passage way at the rear. The service was conducted by the girls of the Philomath group and a pageant by five girls from the Vici and Servanus group entitled "Mothers of Great Men," gave the key note to the service. This was carried forward by a solo by Mrs. Bannan entitled "My Mother," and Mr. Smith's message, "Memories of my Mother" was the climax of the evening. The anthem entitled "God Who Mad'st Earth and Heaven," was rendered by the choir and brought the service to a fitting close.

would never have won his battles if there had been civil war in his stomach. Physical breakdown comes from warring foods.

MOTHER'S BREAD

is the great harmonizer. One hundred per cent food itself—helps other foods digest, too. Eat it freely—several slices at every meal—know that feeling of peace and contentment.
